FROM MBS FRATERNITY

*“The Empires of the future are the Empires of the mind.”*

MBS International School today stands tall, not only as a citadel of learning, but as a spirit, epitomizing the essence of excellence and a passion for distinction, in this fast changing era of successive progression.

Each child entrusted in ‘our’ hands is special- a rich core of latent potentialities, a bottomless mine, an ever changing landscape. This responsibility of tending young saplings, of fashioning lives, of blossoming buds is indeed overwhelming and gratifying.

“Like an Impressionist’s painting composed of thousands upon thousands of apparently incoherent dots, we only perceive the brilliance of the masterpiece when our focus shifts from seeing the abstract dots to appreciating the portrait as a whole, revealing its resplendent radiance and beauty.”

The School’s accomplishments, in less than a decade of its inception, demonstrate its strong foundation of excellence and values where we delight in educating our youth to be thoughtful, ethical netizens, equipped to maintain their pre-eminence in the global repute.

Correspondingly, the curriculum also has been tailored incorporating higher order thinking skills, multiple intelligences, technology and multimedia enabling them to utilise their innate predispositions to the full and equipping them to deal with all the vagaries of life as they navigate in the new epoch.

The steady stream of awards and accolades in academics and co-curricular arenas bear testimony to our commitment to excellence.

This newsletter, a statement of the school’s laurels and achievements of the last year, is a reflection of the school’s ethos with which we have pursued our goals and the very spirit with which we at MBS School work.

Happy reading!

## VIBRANT COLOUR DAYS
